

Player Ratings for Charlotte Area Courses

Compliments of Rodney Gardner who originally created this for us. Thanks Rodney!

Instructions

- Find your course across the top.
- Find your average score (or single-round) score on the left.
- Find the intersection to see your approximate Rating (or rating for a single round).

*SSA is the Scratch Scoring Average. That is the score that a Scratch Disc Golfer (a player with a Player Rating of 1000) would be expected to average. These SSA values assume good weather (moderate temperatures and light winds). SSA in italics are estimates.

** Difficulty = (SSA-1.67*18)/Length*20,000. 1.67 is the average number of shots a scratch golfer takes to "putt out" on every hole. The 20,000 multiplier puts the rating on a meaningful scale (basically with 100 as the most difficult).
